

Department of Business Leadership

Degree Completion Sequences

The Bachelor's in Business Leadership at VCBCS trains students in kingdom focused leadership. This isn't your typical business degree. Rather than gearing a degree towards the practicalities of running a business such as marketing or accounting, we offer a degree for businesspeople that focuses on leadership in the workplace, teaching you how to develop and lead people to leave a legacy. Through our program, you will gain skills which will help you lead with confidence in all areas of life. We develop core competencies for leaders which will transform the way you look at leadership. At VCBCS, we are committed to offering you a solid bible-based education to promote success in the workplace for you and your entire team.

Degree Completion Sequences

NOTE: These are *sample sequences* to provide a basis for what a typical program would look like. There is some flexibility within each program that allow for courses to be added or substituted for the courses that are listed below.
